spending more time out in the field looking at University parcels. If the weather permits us, we hope to get boots on the ground for all of our parcels and capture supporting drone footage.

Re

educational mission. Although the University remains committed to some timber development, we are looking at other development options to monetize [University property](#).

We appreciate all of the feedback we have received from you and other community members over the last few years and in the last few months. Thank you for making time to let us know your perspectives. We have heard about your needs for firewood, requests for small timber cuts, interest in carbon credits, hunting and recreational needs, local biomass supplies, and desire to see logs supplied to Alaskan buyers and small mills, and much more.
