

Request Expected Expenses

Location for documenting Expected Expenses for the trip including airfare, lodging, car rental, registration, other ground transportation, and per diem. Users can also allocate expenses to additional funding sources other than the primary funding in the Header.

For airfare, lodging, and car rental, information entered in Expected Expense drives data populated in the Travel module when booking the trip. If only using the Travel module to book airfare but booking lodging and/or car rental outside of Concur, still enter all applicable components as Expected Expenses. The lodging and car rental are skippable during booking (airfare is not).
